Product Introduction

Google TV is coming on stage in due form! It's an open and comprehensive platform for both hardware and software, which is aimed at introducing the entire internet world to television device, so as to let people access the on line wonderful world with ease.

FLEXIVEIW allows your HDMI TV to functions as:

- *Internet TV
- *Internet Browser
- *On-line shopping and banking portal
- *Multi Media player(Down load or off memory)
- *Social network portal(Face Book, Twitter,etc)
- *Download Games
- *Download applications
- *View and share photos
- *SKYPE/MSN friends and family
- *Send and receive emails

There's more on TV than television.

TV not only play roles in watching video, but also in finding resources, browsing photos, playing games, listening to music, and so on.

Type in what you want to search, the Google TV will find it for you. It lets you seamlessly search all of the content on your TV, the web, and apps-then access it with a single click. You can also easily switch between TV and the web without having to change the inputs on your television.

The web is now a channel

With Google Chrome and Adobe Flash Player 10.1, Google TV lets you access everything on the web. Watch your favorite web videos, view photos, play games, check fantasy scores, chat with friends, and do everything else you're accustomed to doing online. Plus, the world's best websites are now being perfected for television.
